In addition to the community benefit described above, Wheaton Franciscan Healthcare in Illinois also provides care to Medicare and Medicare HMO patients that is not fully reimbursed by the government. We provided \$3,235,062 in unreimbursed Medicare and Medicare HMO services. We are not including this gap in Medicare reimbursement in accordance with the Catholic Health Association Community Benefit Guidelines. If we included the Medicare shortfall, our total would be \$10,267,563.
